Junction boxes with proven functionality in fire
PO 155, PO 125, PO 105

Note:
The boxes are equipped with 3 to 9-poles ceramic terminal blocks, with proven functionality in case of fire.
Number of conductors that can be connected to the ceramic terminal blocks:
Cross section 4 mm² : 10 x 0,5mm²; 9 x 0,75mm²; 8 x1mm²; 4 x 1,5mm²; 3x 2,5mm²; 1x 4mm²; 1x 6mm².
Cross section 10 mm²: 10 x 1mm²; 6 x 1,5mm²; 4 x 2,5mm²; 2 x 4mm²; 1 x 6mm²; 1 x 10mm².

Products made from green energy

PARAMETERS:

- Complies with standards: DIN 4102-12, class E 90 STN 92 0205, class PS 90, ČSN 73 0895, class P 90-R,
- Functionality in fire: 90 minutes
- Degree of protection: IP55
- Mechanical resistance: IK08
- Material: PA - Halogen-free
- Nominal insulation voltage: 400 V~
- Installation on the surface of class : material A1
- Operating temperature: -25 °C to +60 °C
