

ROS 11

SEZ®
DOLNÝ KUBÍN

# PROMOTION*

## 1st May - 30th June 2025**

## ROS + ENERGY DRINK FREE

- ✓ protected ROS - 4 x
- ✓ unprotected ROS - 1 x

## Connecting energy, refilling power!

**Catalogue type of ROS 11 and ROS 16 versions with MCBs and RCCBs or versions without MCBs and RCCBs**

## ADVANTAGES:

- cover resistant against overheating and burning,
- SIEMENS circuit breakers of the highest quality,
- selectivity class of circuit breakers 3,
- breaking capacity of circuit breakers 10 kA,
- maintenance free,
- material with sufficient mechanical resistance,
- suitable for construction sites, industrial distributions and residential buildings.

ROS 16

## PARAMETERS:

- ambient temperature range: -25°C to + 55°C
- ingress protection: IP 54; IP 66
- nominal current InA: 16 A, 32 A, 40 A or 63 A
- in compliance with EN 61439-1, -3
- nominal voltage Un: 400 V~,250 V~ at frequency 50/60 Hz
- mechanical resistance of an empty box: IK 10

*The promotion only applies to the ROS types listed in the catalogue and does not apply to tailor-made ROS manufactured according to customer´s specifications.
